

A black and white photograph of a vehicle's fuse block. The fuse block is a white plastic housing containing several fuses and relays. Four labels with arrows point to specific components: 'DIODE BOX 5' points to a small black component on the left; 'DIODE BOX 6' points to a similar component on the right; 'TAILLIGHT RELAY' points to a relay on the left side of the block; and 'DOME LIGHT RELAY' points to a relay on the right side of the block. The fuses are arranged in two rows, with some labeled with values like 15, 20, and 30.
