FIRST OVERALL REVISION SHEETS

FOR MODEL 510 PARTS CATALOG (C-0040U)

It is time for the whole parts catalog to be revised as follows.

A. These first overall revision sheets carry all section from INTRODUCTION TO ALPHABETICAL INDEX.

B. This time, replace the previous catalog sheets with these new sheets as a whole , not section by section.

C. However, please keep alive the previous SEAT TRIM INSTRUCTION, since no substitute for it has been prepared.

DECEMBER 1, 1970

Technical Coordinating Section

INTRODUCTION

INTRODUCTION

To bring better customer service and better spare parts supply, please note the following four points when refering to this Parts Catalog.

I. HOW TO USE THIS PARTS CATALOG

A. The Publication Number of this Parts Catalog is C0040U. Whenever quoting the Parts Catalog, tell us this Pub. No..

B. All spare parts available for MODEL 510 series are included here.

C. Alphabetical Section Index and Illustration Index appears on page 32 and 35.

D. Brief specifications of Model 510 series appear on page 2.

E. Car Name and abbreviations in the applied model appear on page 6.

F. The Car Numbers, the Engine Numbers in the Note column or the Dates in the Applied Date column indicate the application of the parts which were changed. The location of the car No. and the engine No. appears on page 10.

G. Part Number Index is attached to the end of this Parts Catalog.

H. Alphabetical Index is attached to the end of this Catalog.

II. HOW TO PLACE YOUR ORDERS FROM THE PARTS CATALOG (FOR DISTRIBUTOR USE ONLY)

A. Typewrite the spare parts which you are going to order on the given Nissan Spare Parts Order Sheet.

B. At least the Part Number and the Quantity must be filled in as accurately as possible. Otherwise our computer may reject your order.

C. In the case that you can not find the Part No. which you are going to order we shall be very glad to take care of this problem after verifying its availability. Therefore, place your order on another order sheet as a conditional order, which does not include an Ordinary order, telling us precisely the Part Name, the Place where it is attached and the Quantity if it is a colored thing or material, attach a sample.

III. HOW TO COMPARE THE CONFIRMATION LIST AND THE PARTS CATALOG (FOR DISTRIBUTOR USE ONLY)

Although all parts contained here are in principle available for supply, if you find some parts shown in the Parts Catalog sorted F/# U on the confirmation list where the availability of your ordered parts are classified by our computer in respect to our stock control system, kindly tell us the Parts Numbers, the Pub. No. of the Parts Catalog (C0040U), and the Page. We shall be glad to inform you of the availability by the revised confirmation list as soon as possible.

IV. HOW TO ADAPT TO OUR PART NUMBER SYSTEM

In our parts supply system, the Part Number plays a key role. Therefore, you may print only the part number and the quantity as long as they do not cause mutual misunderstandings.

For this reason, kindly become familiar with our Part Number System which appears on page 19.

BRIEF SPECIFICATIONS

DIMENSIONS AND WEIGHT:

ITEM \ MODELS	(P)(L)510S(U)(T)	(P)(L)510(U)(T)(A)	P(L)510(U)TK	WP(L)510(U)(T)A	RPL510SUT

Compression ratio	8.5 : 1	8.5 : 1	9.5 : 1

FUEL SYSTEM: "HITACHI" dual barrel down draft type carburetor (variable venturi side draft type carburetor for P(L)510(U)TK only); Mechanical type diaphragm pump; Paper element type air cleaner; Fuel tank capacity 45 ℓ (11.9 U.S.gal.).

LUBRICATION SYSTEM: Pressure feed with full-flow type oil filter; Trochoid type pump; Oil capacity 4.6 ℓ(1.22 U.S.gal.).).

IGNITION SYSTEM: Coil and distributor with mechanical and vacuum control.

COOLING SYSTEM: Pressurized radiator with centrifugal pump; Pellet-type thermostat and fan; Cooling water capacity 6.4 ℓ (1.69 U.S.gal.).

ELECTRIC SYSTEM: 12 volt, 40 AH or 50 AH battery; 30 AH alternator with ragulator; 33 AH alternator for USA & CANADA 1 KW (1.4 HP) magnetic shift starter (negative earth); 60 AH battery (optional).

TRANSMISSION: 3 or 4 forward speeds and 1 reverse; All synchromeshed on forward gears; 3-speed automatic transmission.

3.700	Others	P(L)510S(U)T, P(L)510(U)T, PL510(U)TK, WP(L)510(U)T
3.889		WP(L)510(U), WP(L)510(U)A
3.900		P(L)510S(U), P(L)510(U), P(L)510(U)A
4.375		(L)510S(U), L510(U)

CLUTCH: Single, dry disc with cushioning springs (510 series with L13 engine); Single, dry disc with diaphragm spring (P510 series with L16 engine); Diameter 200 mm (7.87 in).

FRONT SUSPENSION: Independent strut type with tension rod and stabilizer.

REAR SUSPENSION: Fully independent semi-trailing arm with coil springs and telescopic double acting shock absorbers.

STEERING: Right or left hand drive; Recirculating ball type gear; Ratio 15.0 : 1.

BRAKES: Hydraulic; Front two-leading shoe; Rear leading and trailing shoe; Brake drum dia. 228.6 mm (9.0 in); Parking brake mechanically operated on rear wheels only; Front disc brake [standard for P(L)510(U)TK, optional for other models].

WHEELS AND TIRES: Steel disc wheels; 5.60-13-4 PR tires.

LAMPS: Two dual head lights (sealed beam) with dipping; Two parking and turn signal lights; Two combined stop, tail and turn signal lights; Room light; Rear license light; Back-up lights; Side directional lights.

INSTRUMENTS: Speedometer; Fuel gauge; Water temperature gauge; Oil pressure warning light; Turn signal pilot lights; Main beam warning light; Parking brake warning light; On instrument panel, ignition and starter switch, lighting switch, choke control knob, windshield wiper switch, Four-way flasher switch (U.S.A. only), fresh air control levers and glove box.

BODY WORKS: Four-door sedan; Four-door station wagon; Five-seater with adjustable front seats; All steel body full upholstered with vinyl leather; Dual self-parking windshield wiper; Room light door switches on both sides; Turn signal lever with dimmer switch unit; Interior back mirror; Safety glass on all windows and doors; Two sunvisors; Ash trays, front and rear; Vinyl floor mat; Safety belt anchorages (front: 3 point, rear: lap); Fuel tank filler cap lock; Trunk floor mat; Moulding sill, Rear door pull handle; Full flow ventilator.
Full height single lift gate; Vinyl mat on luggage floor, Rear-gate lock (for Wagon).

EQUIPMENT APPLICATIONS:

Item	Standard	Deluxe	Wagon
Bumper over rider	opt	o	o
Drip channel moulding	x	o	o
Anti-sun glass	opt	opt	opt
White tire	opt	o	o
Large wheel cap	opt	o	o
Front door pull handle	o	x	x
Front arm rest	x	o	o
Rear arm rest	x	o	o
Package tray	x	o	o
Glove box lid lock	x	o	o
Spare wheel cover	opt	o	x
Trunk room mat	opt	o	o
Engine compartment light	x	o	o
Windshield washer	opt	o	o
Cigarette lighter	opt	o	o
Clock	opt	opt	opt

O ..... Standard equipment

X ..... Not available

Opt ..... Option

OPTIONAL PARTS FOR ALL MODELS: Outside back mirror (on fender or door); Tubeless tire; Heater; Radio: Cooler; Steering lock; Passing light (only left-hand drive); Anti wind-lift type wiper blades; 60 AH battery (N50Z) for frigid zone; Carpet.

These specifications are subject to change without notice.

DECEMBER, 197

EXPLANATION OF EACH COLUMN

PART CATALOG:

1. 'S' column (preceding the KEY No. column)
(DISTRIBUTOR USE ONLY)

* ..... Signifies that the part No. has been removed.
If the part No. A is preceded by "*", the part No. A appears in the SUPERSEDED column of the part No. B.
In this case the part No. B is the superseding part of the part No. A.

\# ..... The parts preceded by "#" are conditional order items. Place the order as specified in the Nissan Parts S.O.P.

2. KEY NO. column

A KEY NO. consists of 5 digits.
The first 3 digits play the role of connecting the part No. to the part in the Illustration.
When the first 3 digits are blank, it means the same as above. The last 2 digits are merely suffix to show the sequence.
The KEY NOS. may be changed at each revision.

3. PART NO. column

PART NO. is as a rule ten digits.
However, 12-digit PART NO. may rarely appear.
Moreover PART NO. column shows level of the component parts as below;

	PART NO.	PART NAME
	. . . .	
	–	ASSEMBLY
	–	SUBASSEMBLY-A
	–	COMPONENT-A
	–	COMPONENT-B
	–	COMPONENT-C
	–	SUBASSEMBLY-B

ASSEMBLY includes SUBASSEMBLY-A and SUBASSEMBLY-B.
SUBASSEMBLY-A includes COMPONENT-A.
COMPONENT-A includes COMPONENT-B and COMPONENT-C.

4. DESCRIPTION column

Part name is shown in this column.
"INC." is the abbreviation of "including".

5. Q'TY column

The quantity in this column shows the pieces of the part used in the section.
"AR" is the abbreviation of "as required".

6. UNIT PKG column (DISTRIBUTOR USE ONLY)

UNIT PKG column indicates the pieces which are contained in a packing box. Place the order for a part multiplying its unit package (ex. UNIT PKG 10-make your order by 10, 20, 30, -------).
Then you will receive the part in a form easily to be stored into the bin.

7. APPLIED MODEL column

Applied model is described in this column.

8. APPLIED DATE column

In case of the annual model change, the applied date is used as the abbreviation instead of the actual Car No. or Engine No..
The APPLIED DATE column signifies this applied date. For example, from "1969" stands for 1970 year model and you can find the actual Car No. by referring to the "Car No. and Engine No." section in the introduction.
On those pages, the applied date and actual Car Nos. are described together with picture of the annual model.
If "NOTE" appears in the APPLIED DATE column, see NOTE column at the foot of the page.
You can find the actual Car No. or Engine No. there.

9. ICA column

ICA is the abbreviation of Interchangeability.

9-1 N column

The code in the N column signifies whether the part in the PART NO. column is substitutive for the part in the SUPERSEDED column or not.

9-2 F column

The code in the F column signifies whether the part in the SUPERSEDED column is substitutive for the part in the PART NO. column or not.

"Y" is abbreviation of Yes (i.e. Substitutive)
"N" is the abbreviation of No (i.e. Not Substitutive)
"C" is the abbreviation of Condition (i.e. Substitutive with condition)

In the case of "C", the details of the condition are described in the NOTE column or ILLUSTRATION.

10. SUPERSEDED column

This column signifies the superseded part no. of the part in the PART NO. column.

11. CAR NAME AND ABBREVIATIONS IN THE APPLIED MODEL

The car name and abbreviations used in the applied model column are as follows. These car name are taken by each model type, equipment (i.e. Deluxe and Standard), the position of steering wheel, the transmission system, the displacement of the engine, sedan or wagon and the destinations.

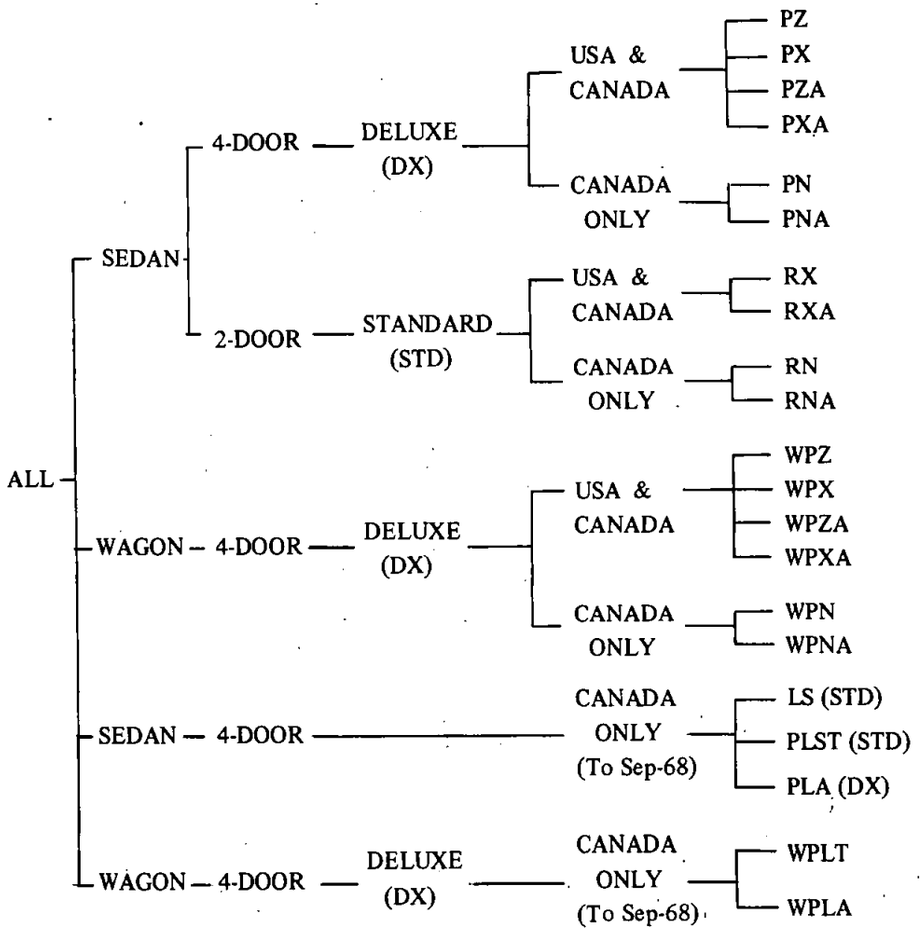

MODEL SYMBOLS AND ABBREVIATIONS:

Car name			Model	Symbol	Style	Transmission

GROUP SYMBOLS

SEDAN ..... The part is used on all 510 Sedans.

WAGON ..... The part is used on all 510 Wagons.

3-SPEED ..... The part is used on 510 model with a 3-speed manual transmission.

4-SPEED ..... The part is used on 510 model with a 4-speed manual transmission.

AUTOMATIC (or AUTO) .. The part is used on 510 model with an automatic transmission.

L13 ..... The part is used on 510 model with a 1,296 cc (79.1 cu.in.) engine.

L16 ..... The part is used on 510 model with a 1,595 cc (97.3 cu.in.) engine.

CANADA ..... The part is used on 510 model for CANADA from 1969 model with safety devices.

CRANK ..... The part is used on 510 model equipped with L16 engine with crankcase emission control devices for every destination except USA (including California) and Ontario.

4-DOOR ..... The part is used on all 510 4-DOOR Sedan and Wagon.

2-DOOR ..... The part is used on all 510 2-DOOR Sedan.

EVAPO ..... The part is used on 510 model equipped with L16 engine with evaporative emission control devices (including exhaust and crankcase emission control devices) for California only.

EXHAUST ..... The part is used on 510 model equipped with L16 engine with exhaust emission control devices (including crankcase emission control devices) for Ontario and USA except California.

USA-S ..... The part is used on 510 model for the U.S.A. with both emission control devices and safety devices.

USA ..... The part is used on 510 model for U.S.A. (including EVAPO, EXHAUST and USA-S)

AMERICA ..... The part is used on all 510 for NORTH AMERICA and SOUTH AMERICA.

OP ..... Optionally equipped.

ONLY ..... ONLY is used together with the destination.
For example, USA ONLY means that the part is exclusively used for Australia.

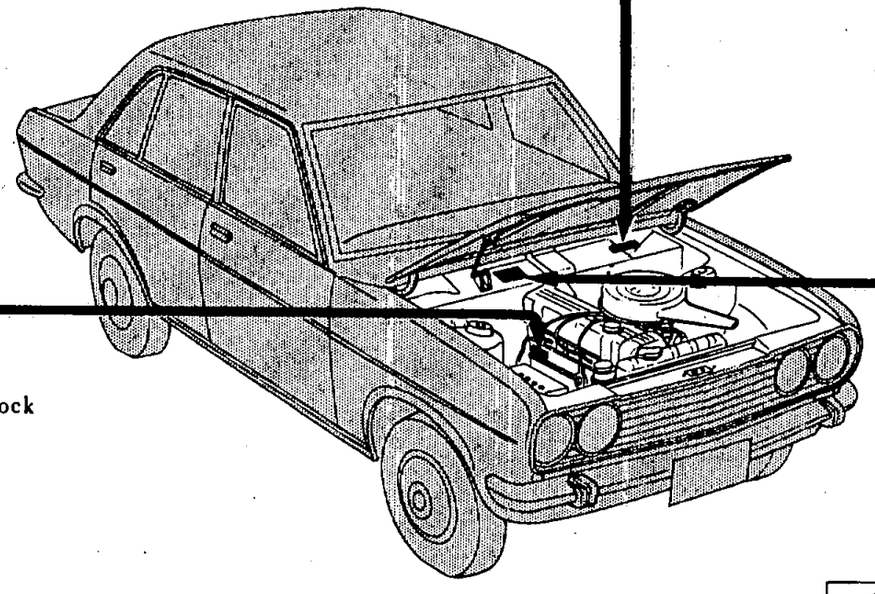

EXC ..... Except.

INC ..... Including.

EXPLANATION OF NISSAN PARTS NUMBER SYSTEM

Our part number as a rule consists of ten digits which are made up of four factors as follows. However, in order to standardize small parts such as screws, washers, bolts, nuts and so on, which are often used on our models, we specify them as NES part according to the Nissan Engineering standard (N.E.S.). These NES parts in principle consist of six digits or eight digits.

Section No.	Character No.	Part Type No.	Distinction No.
O O	O O O	O O O	O O

1. Section No. (2 digits)

   The Section No. consists of 2 digits which indicate the major function of parts.

2. Character No. (3 digits)

   The Character No. consists of 3 digits which indicate minor classification in each Section as shown by the Table of Section and Character No. on Page 21. The character No. of 000 or X00 singifies the assembly parts.

3. Part Type No. (3 digits)

   The Part Type consists of 3 digits which in principle Indicate the applied model as shown by the Table of Part Type on page 24. This means that the part is originally designed for the model. However, it may be used widely over our models. Therefore, it does not always signify the applied model.

4. Distinction No. (2 digits)

   The Distinction No. consists of 2 digits which indicate the difference between similar parts as shown below.

Kinds of Distinction	Distinition No.
a. Similarity	00 - 19, 60 - 69
b. Exclusive Service Use	25 - 29, 75 - 79
c. Material	40 - 45, 80 - 85
d. Processing	30 - 39, 90 - 94 50 - 59,

Note; The other Distinction Nos. are unset.

a. Similarity

When parts are only slightly change, the distinction is shown by the No. Similar or colored parts are distinguished by this No.

For example;

74902-11400	Carpet (red)
74902-11401	Carpet (blue)
74902-11402	Carpet (brown)

b. Exclusive Service Use

Repair kits or sets which are used exclusively for service, are set by this No..

For example;

46010-10800	Brake Master Cylinder Assembly
46010-10825	Repair Kit

Printed in Japan

c. Material

The difference of materials is distinguished by this No..

d. Processing

For the convenience of our production line process, in the case we can not supply by the original part No., the sub-assembly is supplied by this No..

For example;	20132-08750	Clamp sub-assembly
		Components
	20132-08700	┌ Clamp-lower
	20133-08700	├ Clamp-upper
	1-14520-1	├ Bolt
	9-15115-1	└ Washer

5. Except those numerical part numbers, there are the part numbers begining with letters. They are the part numbers exclusively reserved for service use.

BATTERY

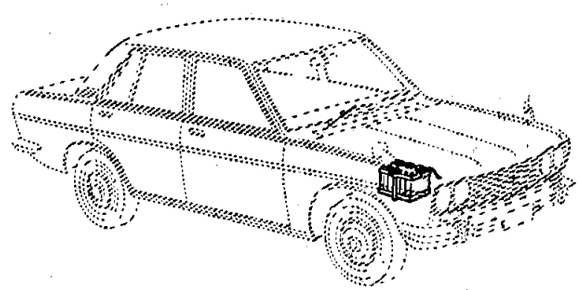

NOTE: For the tropics (over 20°C), specific gravity: 1.240

For the frigid zones (below 0°C), specific gravity: 1.280

For the temperate zones (0°C to 20°C), specific gravity: 1.260

These batteries do not have electrolyte in them. When you need the electrolyte, order it according to the following list. Otherwise, the battery without the electrolyte is to be sent to you. In this case, it is unnecessary to be charged after you pour it into the battery.

Electrolyte	H	W	C
For 40A (3 liter)	24415-01303	24416-01303	24417-01303
For 50A (4 liter)	24415-01304	24416-01304	24417-01304

THE BETTER YOUR FACILITIES, THE MORE BUSINESS YOU CAN DO!

Remember, the successful and profitable operation is largely influenced by your facilities – how well they are planned to attract and service your customers.

Let's take a close look at what you need to work with to maintain your present business effciently – and to expend toward the goal you seek.
