## Circuit Schematic

# TRAILER WIRING

---

## Circuit Operation

The trailer connector is an extension of the main wiring harness. See corresponding exterior lamps cell for circuit operation.

Preliminary

# TRAILER WIRING

## Component Location Index

(Refer to Section 201 for photographs.)

| <b>Component</b>                                | <b>Photo No.</b>                                      |
|-------------------------------------------------|-------------------------------------------------------|
| Body Control Module<br>(BCM) . . . . .          | On Rear Fuse Block, under left rear seat . . . . . 53 |
| Fuse Block-Rear . . . . .                       | Under the left rear seat . . . . . 52                 |
| Fuse Block-Underhood . . . . .                  | Left side of engine compartment . . . . . 3           |
| Park LP Relay 30 . . . . .                      | In the Rear Fuse Block . . . . . 55                   |
| Park/Neutral Position (PNP)<br>Switch . . . . . | Left side of transmission . . . . . 40                |
| SP201 . . . . .                                 | Near right front of lower console . . . . . 80        |
| Stop Lamp Switch . . . . .                      | On brake pedal support . . . . . 64                   |
| Turn Signal/Hazard Flasher<br>Module . . . . .  | Below the left side of I/P . . . . . 57               |
| <b>Connector</b>                                |                                                       |
| C101 (38-BLK) . . . . .                         | Left side of engine compartment . . . . . 3           |
| Trailer Connector . . . . .                     | Below the center of the rear bumper . . . . . 116     |
| <b>Ground</b>                                   |                                                       |
| G201 . . . . .                                  | Near right front of lower console . . . . . 80        |
| G403 . . . . .                                  | On left side of rear frame crossmember . . . . . 106  |
