LOCATION OF SYNTHETIC-RESIN PARTS	5-2
--	------------

LOCATION OF SYNTHETIC-RESIN PARTS

M4050001000151

The location and material of each of the principal synthetic-resin parts are shown below.

AB300143AB

AB202351AC

No.	Part name	Material	Abbreviation of material	Heat-resistant temperature (°C)
1	Radiator grille outer	Acrylonitrile butadiene styrene	ABS	80
2	Door mirror (body colour)			
3	Roof spoiler			
4	Radiator grille inner	Acrylonitrile styrene acrylate	ASA (AAS)	80
5	Door mirror (black)			
6	Roof rack cover front			
7	Roof rack cover center			
8	Roof rack cover rear			
9	Headlamp	Polycarbonate	PC	120
10	Tailgate outside handle	Polycarbonate+Polyethylene terephthalate	PC+PET	120
11	Rear door outside handle			
12	Front door outside handle			
13	Front splash shield	Polyethylene	PE	100
14	Rear splash shield			
15	Rear wiper arm	Polyethylene terephthalate	PET	115
16	Air intake bezel	Polypropylene	PP	80
17	Front bumper core			
18	Rear bumper core			
19	Delta cover inner			
20	Inside rear view mirror			
21	Quarter trim lower			
22	Tailgate trim upper			
23	Tailgate trim			
24	Tailgate side trim			
25	Tailgate trim lower			
26	Rear end trim			
27	Luggage floor center lid			
28	Luggage floor center box			
29	Rear scuff plate			
30	Front scuff plate			
31	Cowl side trim			
32	Front bumper face	Rubber denatured polypropylene	PP+E/P	80
33	Side sill garnish			
34	Rear bumper face	Talc filled rubber modified polypropylene	PP+E/P-TD (HMPP)	80-100
35	Luggage floor side box	Polypropylene foam	PP-FOAM	80
36	Front door trim	Talc filled polypropylene (10%)	PP-TD10 (PPF)	100-120
37	Center pillar trim lower			
38	Rear door trim			

No.	Part name	Material	Abbreviation of material	Heat-resistant temperature (°C)
39	Front deck garnish	Talc filled polypropylene (20%)	PP-TD20 (PPF)	120-130
40	Instrument panel			
41	Front pillar trim			
42	Center pillar trim upper			
43	Quarter trim upper			
44	Floor console rear			
45	Floor console panel			
46	Floor console front			
47	Lower side cover			

NOTE:

- If the material symbols designated by the ISO differ from the old symbols, both are given, with the old symboling enclosed in brackets.

ISO: International Standardization Organization.

- A slash (/) in the material symbol indicates that two different materials make two-layer construction. A plus sign (+) indicates that the two different materials mix each other.
- The indicated heat-resistant temperature for parts which are composed of two or more types of material is the value for the material with the lowest heat-resistant temperature.
- The material symbols for synthetic-resin parts are embossed on the parts in hidden places.
