Technical information should always be available to the foremen and mechanics, because their careful and constant adherence to the instructions is essential to ensure vehicle road-worthiness and safety. In addition, the normal basic safety precautions for working on motor vehicles must, as a matter of course, be observed.

1 Trailer Weight Guide

(ARL004212; Edition 03.2015)

⇒ “1.1 General information on retrofitting a towing bracket”, page 1

⇒ “1.2 Trailer Weight Guide - overview of models”, page 1

Note

- *We would like to point out that this is only a guide for Audi models and the corresponding trailer weight.*
- *The correct trailer weight for a vehicle specified in the vehicle documents (COC paper) is binding.*
- *For the correct trailer weight for individual and special models not listed in this manual, please refer to the corresponding vehicle documents.*

1.1 General information on retrofitting a towing bracket

- When retrofitting a trailer towing bracket, observe the relevant technical and statutory requirements and manufacturer specifications.
- Use only a towing bracket that has been tested and certified for the vehicle in question.
- Make sure there is sufficient clearance between the bumper cover and any attachments mounted on the towing bracket (such as a bicycle carrier).

Protected by copyright. Copying for private or commercial purposes, in part or in whole, is not permitted unless authorised by AUDI AG. AUDI AG does not guarantee or accept any liability with respect to the correctness of information in this document. Copyright by AUDI AG.

Note

When retrofitting a towing bracket we recommend using only Audi Genuine Accessories ⇒ Electronic parts catalogue “ETKA”.

1.2 Trailer Weight Guide - overview of models

Note

No trailer weights are available for models RS 5, RS 4, TT and R8.

⇒ “1.2 Trailer Weight Guide - overview of models”, page 1

2.1 Notes on maximum speed with trailer

Note

- *The following applies to the German market:*
- *Maximum speed with trailer on 8% gradient (uphill/downhill): 100 km/h*
- *Maximum speed with trailer on 12% gradient (uphill/downhill): 80 km/h*
- *These requirements may vary depending on the country.*
- *Please find out what the legal requirements for towing a trailer in your market are.*
